

What is going to become of all  
the energy and enthusiasm of the  
woman's suffrage movement when  
the federal amendment passes? Is there  
going to be a Woman's Party? I am not  
sure but you would wish the latter;  
I think it a mistake. Any principle  
important enough to found a party  
on affects men and women equally.  
The sexes may have certain separate  
interests for the protection of which  
special organizations are necessary  
but these must be subsidiary, if  
a ~~be~~ any approach to a healthy social  
state is to be made.

There are two bad features to prison  
life. (1) It cuts off all but mental activity.  
(2) It makes my wife a widow and  
my boy fatherless. That is perhaps harder  
on me than them. At all events, I do  
not love the gails.

Best wishes to you. Regards to all the  
acquaintances I made in N.Y. Hope  
to hear from you as often as your  
other interests allow. Yours sincerely  
Carek Bowden
